

ZOONO[®]

FIGHT AGAINST COVID-19

2020.04.18

Besides every-day users of the product, Zoono is used worldwide in the fight against Covid-19, namely in the following countries (and more will join shortly, as soon as we supply them):

Angola	New Zealand
Australia	Philippines
Austria	Portugal
China	Qatar
Fiji	South Africa
France	South Korea
Germany	UAE
Hungary	United Kingdom
India	USA
Indonesia	Vietnam
Malaysia	

The areas being treated are generally:

Hospitals, nursing homes, schools, public transport, supermarkets, commercial offices, agriculture livestock, to name a few.

Even though the media is not usually Zoono's focal point, here goes some links to several publications confirming such use:

Portugal (metro, trains and buses, used by the Ministry of Environment)
